

## BRING ON-LEVEL READING TO STRUGGLING LEARNERS – ANYTIME, ON ANY DEVICE

Reading is a challenge for many students, creating a learning disadvantage that deepens over time. BrightFish Reading provides a research-based intervention for grades 2-10 that lets struggling learners use on-level text to build fluency, vocabulary and comprehension skills aligned to state standards.

Affordable licensing, real-time data and comprehensive teacher support make BrightFish Reading an effective program for a few students to thousands district-wide.

### USE BRIGHTFISH READING TO:

- Provide structured practice in word recognition fluency, vocabulary and comprehension
- Engage with high-interest fiction, nonfiction and video content
- Strengthen understanding of Common Core and state standards for ELA
- Motivate through gamification, rewards and constructive feedback
- Improve reading in Tier I at-risk, Tier II, English Learners and special education students

*I was hesitant about using another “program” to help my students. BrightFish Reading exceeded my expectations. Kids were eager to come to my class to work on their BrightFish stories. They wanted to correctly and quickly complete a story. My office walls are full of their certificates and the students take pride seeing their name on the wall when they complete stories!"*

# BRIGHTFISH READING

# HOW IT WORKS

## 1 Construct content and build skills

Fiction and nonfiction passages are assigned to a grade level by Lexile® measure and broken down into manageable chunks.

### Fluency

Students develop word and phrase fluency – fast and accurate.

### Vocabulary

Direct instruction and practice build contextual understanding.

### Comprehension

Activities tap knowledge and critical thinking skills while increasing confidence with online testing.

## 2 Practice, motivate, improve

Constructive feedback provides instructional support while gaming techniques and points-based rewards ensure students stay motivated to read and improve.

## 3 Track results & remediate

Teachers view class progress in real time with color-coded reports and drill-down details. Data can be used for remediation and small group instruction.
