### Comprehension questions for "Howler Monkeys"

Score: /8

Read the text for "Howler Monkeys" and answer the two questions in the space below. Remember to use capitals, correct spelling and punctuation!

### Howler Monkeys

Barking in the rainforest? Now that's weird! Howler monkeys live in the rainforest. They can bark or roar. They do this to keep other monkeys away. Their calls can be heard more than three miles away! Howler monkeys live in trees. They eat leaves and fruit. They hold on to the trees tightly with their long tails. Howler monkeys are difficult to see in a tree. They live high up in the branches. They rarely move around. Howler monkeys live in groups. A group of howler monkeys is called a troop. There are nine different kinds of howler monkeys. They are brown, red, or black. Some howlers even have beards!
